

## Chromebook Cheat Sheet!

1. **Power on:** Press the power button then hit Ctrl+D during boot to skip the scary warning screen. (*Do NOT hit spacebar! This will erase your Ubuntu OS!*)
2. Click **Browse as Guest** at the bottom-left (or log in if you have internet + a Google account).
3. Hold Ctrl+Alt+T, then type shell
4. Type ubuntu to start linux. (or sudo startxfce4)
5. You can switch between Ubuntu& Chrome OS with:
  - Ctrl+Alt+Shift+Back
  - Ctrl+Alt+Shift+Forward

For more info, see: <https://goo.gl/WrEKo1>
